SUMMARY

I'm a UI Engineer whose passionate to build websites with interactive experiences. I love to animate all web elements such as UI, logo, icon, etc. I also have experience with design tool like Sketch.

EXPERIENCE

- **Icreon Tech** (September 2016 - Present)
Developed a redesigned concept of <https://icreon.com>, used SVG and Canvas animations. Developed a desktop app using Electron Framework, Node.js, and REST API.
- **uiplease.com** (April 2017 - Present)
<http://uiplease.com> is a side project where I do animation experiments and explain how the code works.
- **Traveloka** (October 2015 - August 2016)
Developed better animation and interaction for Traveloka's UI components such as accordion, tab, and calendar widget. My dribbble shots at Traveloka can be found at <http://dribbble.com/traveloka>
- **Freelancing** (June 2013 - September 2015)
Worked on some freelance projects for many clients. Designed and developed HTML templates ready-to-use at Themeforest. Sold 336 HTML templates. <http://themeforest.net/user/balapa>
